

LSR FIXED PRICE FIT-TO-SUE INVESTIGATION

Use this service to make well-informed, cost effective decisions.

You will have answers to questions such as:

Is it worth pursuing litigation against this company- does it have sufficient resources to service a claim? This research will provide the answer.

The company has gone quiet – is it still in business or is it just ignoring me? The type of assets needs to be known. If they are located in difficult jurisdictions then you need to know.

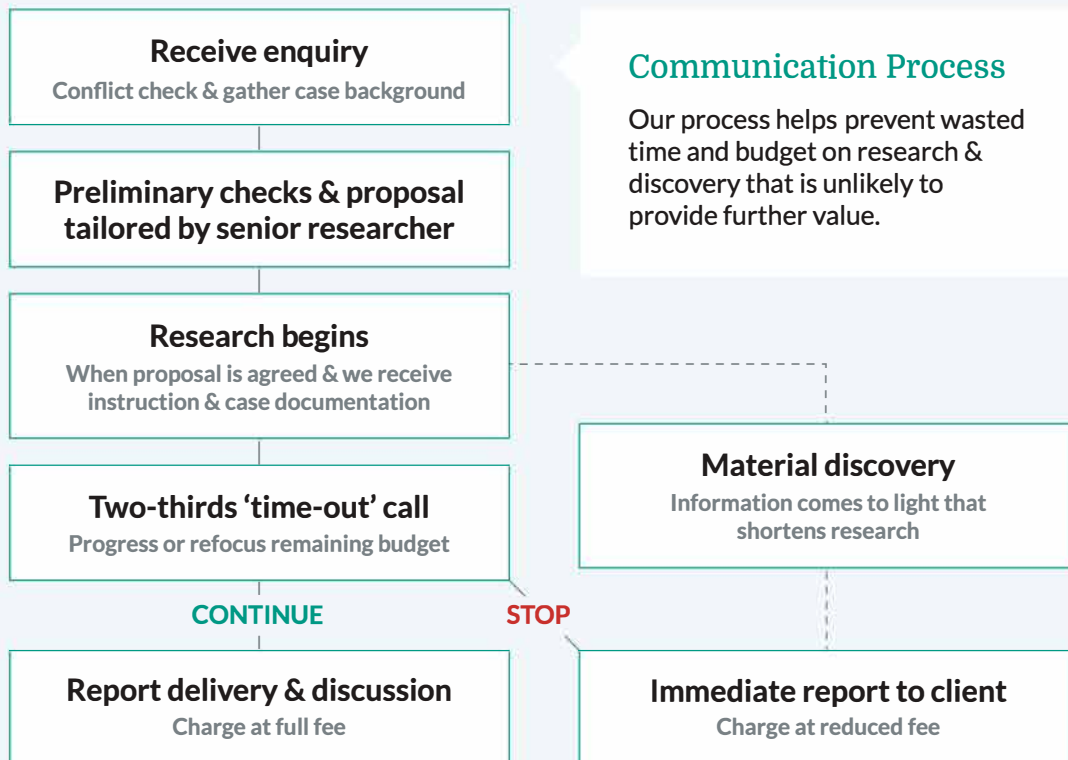

Can you identify assets? This research usually identifies the asset base and where it would be located. The pursuit of suitable targets can be followed up with a pure asset search, which will be charged on an hourly basis.

Is the company linked to other companies with assets located in more favorable jurisdictions? Linking the target to affiliates and subsidiaries is included.

Does this cover brass-plate, offshore registered companies with little or no public information? Yes, it certainly does. It is specifically designed to cover these and other hard to penetrate geographic regions (such as China, Middle East, India etc) or low-profile business sectors.

A fixed fee of US\$3,580 offers you significant benefits:
